Connecting People. Transforming Lives

# Introduction:-

- Supply chain is a global industry that provides endless opportunities for skilled professionals who can plan, control, execute and optimize a product's flow from point of origin to point of consumption in the most economical way possible
- Global program is a strong choice for students with previous education or experience in business administration or operations and technical and engineering fields, and will deepen their understanding of the complexity and interconnectedness of roles, work processes, transactions, and stakeholders within and between supply chains, and the impact supply chain decisions can make on an organization's financial prosperity.
- Furthermore, students can demonstrate their competencies in three SAP intense courses and earn the SAP-UA Student Recognition Award, which can add an extra edge to their profile. The program includes opportunities to gain valuable credentials and set graduates apart in the competitive job market.

-
