

**MSc Logistics and Supply Chain Management**

Connecting People, Transfor

# Introduction:-

1. Increase your potential and apply knowledge to a real consultancy project with a CILT and CIPS accredited Master's in Logistics and Supply Chain Management.
2. A full understanding of supply chain management and logistics is increasingly important in business and management. This MA in Logistics and Supply Chain Management explores supply chain networks in global and domestic contexts and prepares you to address issues such as cost reduction and service enhancement. Areas of study will include the functions of procurement, production, distribution and customer service, alongside a diverse range of designs and structures.
3. You will have the opportunity to visit industrial locations, attend seminars from industry guest speakers, and collaborate with business partners for a dissertation. In the final stage of this course, you will undertake a two-week consultancy project with selected companies.
